

INVITATION TO SPONSOR

THE
GDN
NETWORK

OCT 29 - 31, 2025

OSLO
ANNUAL MEETING

DUGNAD WORKING TOGETHER FOR A BETTER TOMORROW

OVERVIEW

Each year, representatives from around the world gather at the Groningen Declaration Network (GDN) Annual Meeting to share, learn, and lead discussions on developing business and technical platforms to improve the policies, data interoperability, and exchange networks that support mobile learners sharing official credentials from formal, non-formal, and informal learning experiences.

The GDN Annual Meeting is a unique opportunity to engage with a vibrant network of stakeholders. Sponsorship of the 2025 GDN Annual Meeting in Oslo will connect your organization with others who are guiding the global movement to increase respect and recognition of the currency of learning. In a rapidly expanding market, this opportunity offers a chance to strategically align your organization with the vanguard of cross-border mobility developments.

As an important contributor to the data ecosystem that fosters and supports the portability of academic credentials, **we invite you to join us** for this opportunity and to position your organization where the critical conversations begin. Connect and confer with a passionate group of world thought leaders dedicated to collaboratively delivering learner data accessibility.

In 2025, the 14th Annual Meeting will take place from October 29-31 in the beautiful city of Oslo, Norway. The conference will be delivered in a hybrid format allowing those not able to join us in person to participate virtually.

ATTENDEE PROFILE

WHY SPONSOR?

Sponsoring the GDN Annual Meeting will:

- Increase your organization's exposure through the event itself, event advertising, and media coverage.
- Give you direct access to an audience interested and aligned with your organizational objectives.
- Provide outstanding networking opportunities and shared experiences for your staff.
- Increase your knowledge of (and potentially contribute to) the latest from top thought leaders in the industry.
- Access data about attendees to inform your market intentions (within the consideration of privacy and consent).

BACKGROUND BRIEFING

The GDN Annual Meeting celebrated 10 years in 2022 and has held its annual meeting (AM) in cities around the globe, ranging from Beijing and Washington, D.C. to Málaga, Cape Town, Melbourne, Paris, Puebla, Ottawa, Groningen, Jordan, and San Diego. The meetings have been a key catalyst to the establishment of digital learner data depositories and exchange networks in and between China, the United States, Australia and New Zealand, Africa, Canada, and numerous countries in Europe.

Created in 2012 at a historic meeting in Groningen, the Netherlands, and established legally as a foundation in 2016, the Groningen Declaration Network (GDN) brings together key stakeholders to create an ethically centered Digital Learner Data Ecosystem. With a Board of Directors representing every continent, the GDN stands as the most inclusive global effort to date aimed at enabling digital learner data mobility.

The Groningen Declaration Network (GDN) is a diverse, global, and interconnected ecosystem which includes large digital learner data depositories, educational institutions, government bodies, third-party academic data processors, and innovative companies, all seeking to facilitate educational and professional mobility. Its community is committed to learner privacy and data protection, transparent and responsible practices, and the recognition of digital learner data and qualifications. The GDN aims to ensure that citizens have access to secure digital records of their own educational achievements and can share them with whomever they choose, whenever they choose.

For those displaced by conflict, the loss of academic records presents major hurdles to relocation and the pursuit of education and skills development. The GDN has thus supported initiatives dealing with migrant data mobility, resettlement, and access to services otherwise denied. Such initiatives include the European Qualification Passport for Refugees (EQPR), the Article 26 Backpack Initiative, the SAQAWES Refugees Pilot Project, the African Qualifications Verification Network (AQVN), and Kiron Open Higher Education.

The goal of the GDN is a global, equitable, accessible Digital Learner Data Portability environment. One of the largest global issues to this end is a fundamental lack and imbalance of global data and digital capacity. The Annual Meeting of the GDN creates the opportunity to convene practitioners and supporters to continuously share digitalization development and use cases, strategies, and tactics that are working, expand the number of new projects moving forward globally where capacity is lacking, and continue to bring new ideas as technologies and methods evolve to the fore to help achieve the goal.
